Unique Feature	Engine degreaser is extremely effective, yet is biodegradable, non toxic and can be flushed directly into the marine environment without harm to marine life or the ecosystem
Industry Standards	OECD 301B

BILGE WASH

Product

Company

Product Name

Bilge Wash

Company Name

Bioneat Inc.

Product Website

www.bioneat.com

Product Description

Bilge Wash is designed to dissolve oil, grease, tar and any other contaminants that collect in a marine bilge.

Product Categories

[38%] - Aircraft and Boat Cleaners - Boat Cleaners

Found in Catalog

[Vehicle and Equipment Maintenance > Boat Cleaners](#)

Biobased Content

Certified 41%

Product Application

Bilge Wash is poured directly from the bottle into marine bilge water to quickly dissolve oil, grease, and tar and to render a liquid that can be safely flushed with water directly into the marine environment without harming marine life or the marine ecosystem.

Unique Feature

Bilge Wash while extremely effective, is nontoxic and biodegradable and therefore can be used and flushed directly into the marine environment without harm to marine life or the marine ecosystem.

Industry Standards

OECD 301B
